Postdoctoral Fellowship at Tel Aviv University Call for Applications

The Demography Lab at Tel Aviv University invites applications from qualified candidates in demography, sociology, economics, and related fields for a two-year postdoctoral research position. The postdoctoral fellow will join an ISF-funded research project on mortality inequalities in the United States and in Israel under the supervision of Prof. Isaac Sasson. The postdoctoral fellow will also be encouraged to develop her/his independent research agenda in related areas.

The fellowship carries an annual stipend in the amount of 103,300 ILS. The successful candidate is expected to start no later than October 2023.

Applications received by 28 February 2023 will be considered. Interviews will be held early March 2023.

Required skills and qualifications:

- Ph.D. in demography, sociology, economics, or related fields. Candidates must show proof of submitting their doctoral dissertation before the start date.
- Excellent academic record and interest in health and mortality and inequalities.
- Strong background in demographic and/or statistical research methods (e.g., life tables, survival analysis, decomposition methods, longitudinal data analysis).
- Experience analyzing large data sets (survey, census, and/or population register data) using Stata or R.
- Ability to lead independent research and to work as part of a team.

Applications should include the following materials:

- Research statement (2-3 pages) describing your doctoral dissertation and future research plans relating to demography, health inequalities, or social stratification.
- Detailed CV including list of publications.
- Writing sample (one published article or unpublished dissertation chapter).
- Letter of recommendation sent directly from your doctoral supervisor.

Please send all application materials to demography@tauex.tau.ac.il

For questions about the position please contact Prof. Isaac Sasson at isasson@tauex.tau.ac.il
